<sup>2</sup> Vintage year refers to the year of fund formation and/or its first takedown of capital. Based on NAV as of 11/30/2025. Excludes cash and liquid investments. Late primaries defined as funds with 30% or more capital drawn at or near date of first investment. Past performance is no guarantee of future results. Information is subject to change. <sup>1</sup> Investors should not expect to be able to sell shares. There are many restrictions to redeem and investors cannot redeem shares upon demand or in the quantity desired. \*The Fund, in its sole discretion, may accept investments below the minimum. Investors subscribing through a given broker/dealer or registered investment adviser may have shares aggregated to meet these minimums, so long as denominations are not less than \$50,000 and incremental contributions are not less than \$25,000.

## MONTHLY UPDATE AND PORTFOLIO COMMENTARY – NOVEMBER 2025

The benefits of a co-investment-focused portfolio were evident in the month of November with the Fund delivering a 3.19% return for the month and year-to-date performance of 14.35%. A significant majority (83%) of the performance contribution was attributable to co-investments, with broad-based uplift across '22 – '25 vintage years. Performance in the middle and lower-middle market drove most of the value creation. Investing in this segment of the market in a diversified fashion across high-conviction sponsors and assets remains key to the Fund's philosophy and approach.

Deployment totaled \$23 million across three co-investments and one LP secondary. Deal flow is robust, and the Fund remains focused on sourcing, underwriting, and originating deals across lower-middle-market private equity.

- **Project Midhurst** was a \$7.5mm LP secondary acquisition of three different portfolios, resulting in a hyper-diversified basket of lower-middle-market exposure. The deal provides the Fund with strong vintage year diversification, an expedited time frame for DPI and early liquidity, and J-curve mitigation.
- **Project Ranger** was a \$9.7mm no-fee, no-carry co-investment in a specialized engineering, safety, and field-services business serving the rail industry in North America. Bow River had an asymmetric informational angle on the asset, as the firm had previously bought and sold the business through its control buyout platform, crystalizing a 6x MOIC for Bow River LPs in 2020. Given Bow River's prior success in operating the asset and knowledge of trends within the end market, the Fund was able to quickly underwrite the opportunity and provide certainty of capital to secure advantageous terms.
- **Project Tank** was a \$3mm no-fee, no-carry co-investment in a lower-middle-market buy-and-build platform in the propane distribution sector serving residential and commercial end markets. Operating in a highly fragmented industry, the company is positioned to generate meaningful scale benefits through M&A, including back-office consolidation, procurement efficiencies, and route optimization.
- **Project Buzz** was a \$3mm no-fee, no-carry co-investment in a leading provider of practice-management systems of record with integrated front- and back-office tools tailored to the legal professional services market. The platform offers CRM capabilities, website optimization, and workforce accountability tools, supported by a diversified base of approximately 22,000 customers with limited churn.

*\*\*Standard deviation is a measure of the amount of variation or dispersion of a set of values and annualized based on weekly performance from January 2021 to present; prior performance excluded as only available monthly. Max drawdown is a measure of an asset's largest price drop from peak to trough. The Fund commenced investment operations on December 31, 2020, after the conversion of a limited partnership Account, Bow River Capital Evergreen Private Equity Fund LP, which commenced operations on May 22, 2020, (the "Predecessor Account"), into shares of the Fund's Class I Shares. Information portrayed prior to December 31, 2020 is for the Predecessor Account. The Fund's objectives, policies, guidelines and restrictions are in all material respects equivalent to those of the Predecessor Account. The Predecessor Account was not registered under the Investment Company Act of 1940, as amended (the "1940 Act"), and therefore was not subject to certain restrictions imposed by the 1940 Act on registered investment companies and by the Internal Revenue Code of 1986 on regulated investment companies. If the Predecessor Account had been registered under the 1940 Act, the Predecessor Account's performance may have been adversely affected.*

*<sup>3</sup>The MSCI World Index is a stock market index made up of approximately 1,600 global stocks. It is used as a common benchmark for 'world' or 'global' stock funds. The index comprises a collection of stocks of all the developed markets in the world, as defined by MSCI and includes stocks from 23 countries but excludes stocks from emerging and frontier economies. The index is used herein for illustrative purposes only. Broad-based securities indices are unmanaged and are not subject to fees and expenses typically associated with managed accounts or investment funds. Index results assume the re-investment of all dividends and capital gains. The index is not a projection, prediction or guarantee of performance. Investments cannot be made directly into an index. The performance of the index shown represents unmanaged, passive buy-and-hold strategies, investment characteristics and risk/return profiles that differ materially from the Fund, and an investment in the Fund is not comparable to an investment in such index or in the securities that comprise the index.*

*<sup>4</sup>Correlation coefficient is a number between -1 and 1 that measures the strength and direction of a relationship between variables. 1 is a perfect correlation when variables move in the same direction while -1 is a perfect negative correlation moving in the opposite direction. Zero indicates no relationship between variables.*
